

Getting a Passport just got easier...

Marathon Oil Corporation, in partnership with Patriot Capital Corporation, can help you finance your Gilbarco equipment acquisitions! As a proven, full-service lender, Patriot Capital extends competitive rates, efficient processing, and industry expertise.

Obtain Passport's speed, security, intuitive touch-screen capability, reliability, automatic backup capability and the ability to grow to meet changing business needs with lease alternatives designed to give you options to save.

- **Plus & Premium Service Available at 0% Interest:** For the entire term of the contract.
- **100% Financing:** Traditional methods of financing usually do not include "soft costs" such as installation, service contracts, and freight. Our lease transactions include all of these, allowing you to finance the total package.
- **Conservation of Capital:** Because of the sizable cash outlay involved in purchasing Passport equipment, many station owners are leasing to conserve capital.
- **No Liens On Land:** Patriot Capital does not place liens on your land. The equipment acts as the collateral.
